

TILLMAN®

Glove Sizing Chart

Sizing for Tillman Gloves

Generally speaking, all of Tillman's glove sizes are indicated at the end of the part number and are imprinted on the glove. In the case of our B, C, and D grade driver's gloves, many of the hems are color coded and refer to a specific size. Red for Small, Green for Medium, Brown for Large, and Blue for X Large.

Use the chart below to find your glove size. Not all gloves are available in all sizes. High heat gloves, for example, are only made in size XL so that they can be quickly thrown off should they become too hot. TrueFit™ gloves, which are a mechanic's style glove, are designed to fit snugger so that the user can handle small parts more effectively.

Finding Your Glove Size

Measure the circumference of your dominant hand just below your knuckles. Compare the measurement to the size chart to find your glove size.

2XS	5"-6"
XS	6"-7"
S	7"-8"
M	8"-9"
L	9"-10"
XL	10"-11"
2X	11"-12"
3X	12"-13"
